Detailed Action

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(f) or (g) prior art under 35 U.S.C. 103(a).

Specification

Objection to the abstract is maintained. The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 250 words. The abstract also appears to contain the misspelled word "homeopathis".

Claim Objections

Claims 5-8 are objected to under 37 CAR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 5 is drawn to a medicinal preparation comprising an active medicinal substance in therapeutic dose and a potentiated

Art Unit 1623

homeopathic medicinal substance having a same chemical formula or composition as said active medicinal substance. Claims 6 and 8 are also drawn to a medicinal preparation comprising an active medicinal substance in therapeutic dose and a potentiated homeopathic medicinal substance. Neither claim 6 nor claim 8 set forth any subject matter which limits the composition set forth in claim 5.

Claim Rejections - 35 USC § 112

10

5

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

15

20

25

30

Claims 5-8 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the absence of a structural formula or chemical name, the following terms are seen to render the claims in which they appear indefinite in all occurrences: medicinal substance and medicinal preparation.

In claims 5-8, applicant recites a medicinal preparation which is produced by homeopathic methods and has initial chemical formula or composition identical with that of the said active substance. It is unclear as to how a compound that has the "identical" chemical formula as the active substance can be differentiated from the active substance and is not the active substance itself as products of identical chemical composition can not have mutually exclusive properties.

Art Unit 1623

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 5-8 are rejected under 35 U.S.C. § 102(b) as being anticipated by Ecanow, U.S. Patent No. 4,963,367.

Claims 5-8 are drawn to a medicinal preparation comprising an active medicinal substance in therapeutic dose and a potentiated homeopathic medicinal substance having a same chemical formula or composition as said active medicinal substance. The patentability in composition claims resides in the compound, no matter what method of production is set forth. A compound that has the "identical" chemical formula as the active substance can not be differentiated from the active substance. The open claim language also allows for the addition of common or suitable excipients or carriers. As such, applicant has made a claim to any compound of therapeutic nature. Ecanow anticipates these claims as it discloses a medicinal preparation comprising a material carrier and one or more active compounds dispersed in an aqueous solution (see claim 5 and p.1-3).

Serial No. 09/117,838

Art Unit 1623

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CAR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CAR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
